FCC Commissioners, I oppose further disintegration of the ownership rules.

Deregulation will lead to a few media moguls controlling all the media we

view. This is a blatant attempt to line the pockets of big business at the

expense of the public (who owns the air-waves). Diversity, local programming

and political dissent will be stifled by a handful of rich media moguls.

These proposed changes (without adequate public debate or notice) are "back

room" politics that have no place in a democracy!Jan Moore NM
